TWIST MAILLON RAPIDE

September 2009

8 mm Large Opening – zinc plated steel

EN 362:2005/Q & EN 12275 certified

Maillon rapide quick links are to be used as all-purpose connectors. Its particular shapes will be chosen accordingly for every specific use.

What about the early wear and tear of ropes and webbings resulting from friction? What about the ventral connection of quick links on harness?

Fitted with a 90 degree twist, the Twist Maillon Rapide is the answer for smoother P.P.E. connections in industrial safety: fall arrest systems, work restraint, work positioning, rope access, as well as in mountaineering, climbing, caving and canyoning.

Item Ref MRGOZ08.0 CE Twist
